ABOUT LIFECYCLE BUILDING CENTER

Lifecycle Building Center (LBC) is a nonprofit that works to reduce/repurpose construction solid waste and redirect affordable building materials to the community, including free materials to nonprofits. Since beginning operations in 2011, LBC has diverted over 2 million pounds of building materials from landfills and saved the community over $1.3 million through deep discounts on material purchases, avoided disposal costs and the donation of free building materials to 90 nonprofit organizations.

LBC IS HIRING AN OPERATIONS INTERN

The Responsibilities of the Internship are: Works in general support of retail/deconstruction/warehouse with activities such as dismantling for reuse, light demo, material handling, material processing, inventory management, merchandising, truck driving and general related labor.
